E-COMMERCE IN LUXEMBOURG

Implementing a distribution hub in Luxembourg for e-commerce enables efficient deliveries of the online purchases to your EU customers. You must then comply with EU VAT regulations.

Benefit of Luxembourg advantages

- Located at the heart of Europe
- Free circulation of the products within the EU
- No prefinancing of import VAT
- No prefinancing of VAT on EU purchases
- The lowest EU VAT rate applies on your first sales to EU private persons (standard VAT rate 17%)

Complying with EU VAT regulations

- Client has no bad surprise : prices include VAT
- Luxembourg VAT applies on your online sales of goods to EU private persons, until your sales exceed the threshold in the destination country: local VAT applies then (see table hereafter)
- Importation and purchase of goods that are delivered in Luxembourg must be periodically reported to the Luxembourg VAT authorities

VAT compliance requirements

Your company must :

- Be registered for VAT in Luxembourg
- Periodically report its purchases and sales to the Luxembourg VAT authorities and pay VAT that was invoiced to the client
- Issue invoices in compliance with EU VAT regulations

FACT SHEET - E-COMMERCE IN LUXEMBOURG

Luxembourg VAT applies on the online sales of goods that are delivered from Luxembourg, as long as the yearly volume of your sales to private persons in a EU destination country does not exceed the threshold laid down by that country. Should you exceed the yearly threshold, your company should also register for VAT in the destination country to charge local VAT (see applicable thresholds and standard VAT rates hereafter).

New rules will enter into force in 2021, that will simplify these rules, enabling a centralized VAT registration to manage and pay VAT for all EU countries.
